Re: NJT000009142

Bob:
*Call Bob Chiksey
of DEP re
location of
this facility
(and status)*

Dear Applicant:

This is to acknowledge that the Environmental Protection Agency has completed processing the information submitted in your Part A Hazardous Waste Permit application. It is the Agency's opinion, based on the assumption that the information submitted is complete and accurate, that you as an owner or operator of a hazardous waste management facility have met the requirements of Section 3005(e) of the Resource Conservation and Recovery Act (RCRA) for Interim Status. EPA has not verified the information submitted. If it is determined that the information is incomplete or inaccurate, you may be asked to provide additional information or in certain circumstances it may be determined that you do not qualify for interim status. In addition, this notice does not preclude a citizen from taking legal action under the provisions of Section 7002 of RCRA.

A facility not meeting the requirements for interim status under Section 3005 of RCRA may be subject to enforcement action for non-compliance. Interim status may also be terminated, according to procedures in 40 CFR Part 124, if the owner or operator fails to furnish additional information which EPA requests in order to process a permit application.

As an owner or operator of a hazardous waste management facility, you are required to comply with the interim status standards as prescribed in 40 CFR Parts 122 and 265 or with State rules and regulations in those States which have been authorized under Section 3006 of RCRA. In addition, you are reminded that operating under interim status does not relieve you from the need to comply with all applicable State and local requirements.

You should be aware that 40 CFR Section 122.23(b) states that, during interim status, the facility shall not:

*Joel 2 facilities.
216 Paterson Plank Road
Carlstadt. NJ*

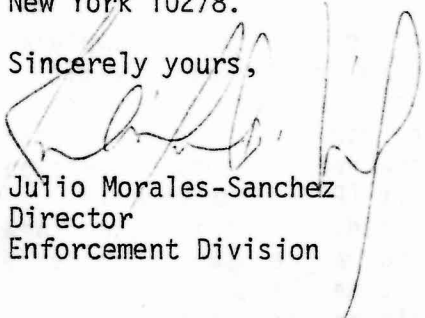

*Both companies
are not processing
cleaning up both
facilities.*

- (1) Treat, store, or dispose of hazardous waste not specified in Part A of the permit application;
- (2) Employ processes not specified in Part A of the permit application;
or
- (3) Exceed the design capacities specified in Part A of the permit application.

If you wish to handle new wastes, change or carry out additional processes, increase the design capacity of existing processes, or change ownership or operational control of the facility during interim status, you may do so only as provided in 40 CFR Sections 122.22 and 122.23 and, in particular, 40 CFR Section 122.23(c).

If you have any questions concerning this letter, please write to Bruce R. Adler, Attorney, General Enforcement Branch, 26 Federal Plaza, New York, New York 10278.

Sincerely yours,

Julio Morales-Sanchez
Director
Enforcement Division
